VEGRZYN, SARVER & ASSOCIATES

Walter Vegrzyn and Carter E. Sarver founded Vegrzyn, Sarver & Associates in 1973 on the guiding principle of providing excellent, personalized services and products to meet the engineering and surveying needs of clients. VSA's professional staff, quality work processes, attention to detail, and newest technology (both in hardware and software) will be in play on your project from start to successful, timely conclusion.

This pump station in Ottawa, IL is an example of VSA's numerous municipal projects.

VSA's Total Service Team

Over the past 37 years, Mr. Vegrzyn and Mr. Sarver have assembled an outstanding staff of professionals and support personnel dedicated to clients' needs. Several staff members have been with VSA more than 25 years, resulting in exceptional experience and expertise unmatched by other firms.

We know most of our clients on a first-name basis and many are returning customers, allowing us to meet their needs over a number of years — even generations.

Find out why, when it comes to getting the job done right and on time, VSA is THE choice.
